Questions from Vendor-Decal Request for Information Posting

1. QUESTION FROM SELLER: The shipping section points to the SOW, but the SOW identifies only the contractor's facilities as place of performance. What is the shipment destination/address?

Will be provided upon release of solicitation.

2. The SOW requires the prime to perform 51% of the work. Are nonmanufacturer/reseller capability responses eligible for this RFI, and how is that requirement intended to be measured?

Response: The request for Information is meant to measure vendor capability to meet Statement of Work requirements. This requirement will be furthered reviewed by the Government before release of the Release For Quotation/Proposal.

3. Please confirm the controlling period and delivery dates: the public base period is January 8–July 30, 2027, while the SOW describes a one-calendar-year term from signature and initial delivery no later than January 8, 2027.

Response: The Government requires a decal order fulfilled by Jan 8 2027. The Government shall further require another order fulfilled by July 31, 2027

.

4. Please confirm required non-pricing response documents and whether the IT/security and manufacturer-authorization template terms apply to this decal RFI.

Response: The Government would want some sort documentation from anyvendor that confirms they can meet the requirements outlined in the Statement of Work.

5.Would the Department accept decals manufactured at a subcontractor's facility in Türkiye, with a U.S. small business serving as the prime contractor?

Response: No

6. The SOW requires the prime contractor to perform 51% of the work. How will that percentage be measured, and which activities may count toward it?

Response:- See Response to Question #2

7. The SOW describes a security feature incorporating the Department of State seal. Will the Department provide the approved artwork and authorize its use by the manufacturer?

   Response: Yes, upon release of the solicitation.

8. Could you clarify the year-code and color schedule? The initial delivery is due January 8, 2027, but the decals are specified to display "28," while the color cycle begins in 2028.

   Response: Please see response to Question #13.

9. **Prime contractor and subcontracting:** May a qualified small-business prime contractor partner with a specialized decal manufacturer to satisfy the production requirements? How will the Statement of Work's 51% prime-performance requirement be evaluated for this supply acquisition?

   Response: See Response to Question #2

10. **Nonmanufacturer rule:** Will qualifying small-business nonmanufacturers be permitted to participate, and will any applicable nonmanufacturer rule waiver be available?

    Response: Qualified Small businesses shall be considered.

11. **Security marking:** Are alternate proprietary anti-counterfeiting technologies acceptable if they demonstrate equivalent or superior security, durability, and authentication characteristics?

Response: No

12. **Samples and testing: Are physical samples, manufacturer certifications, security-feature demonstrations, or third-party test results required with the RFI response**

Response: No. The Government defers to vendors to determine how to confirm capability.

13. **Production schedule:** The Statement of Work requires initial delivery by January 8, 2027, whereas the posting identifies a base performance period beginning that same day. Please confirm the anticipated award date, first production deadline, and required delivery schedule.

    Response: The Government is hopeful this is awarded before December. The first production deadline (i.e., first delivery due date) is January 8, 2027. All delivery dates are specified in Section 10 of the SOW; they are also listed below for ease of reference.

    - January 8, 2027 (24,000 blue decals displaying 2028)
    - July 31, 2027 (24,000 white decals displaying 2029)
    - July 31, 2028 (24,000 yellow decals displaying 2030)
    - July 31, 2029 (24,000 red decals displaying 2031)
    - July 31, 2030(24,000 green decals displaying 2032)

14. **Expiration codes:** Please clarify the required expiration month/year markings and annual color cycle, including the reference to 2028 decals in the January 2027 delivery

Response: No further information/clarification will be provided.

15 . **Delivery location:** Please identify the final delivery destination and whether all shipping and packaging costs must be included in a future firm-fixed-price quotation.

Response: This is a Request for Information and not a Request for Price Quotation. Delivery location will provided when the solicitation is released.

16. **RFI submissions:** Please confirm which technical documents and forms are mandatory at the sources-sought stage, and whether additional pricing requests will be issued under a subsequent solicitation

Response: There are no Mandatory technical documents required but any information to assist which can be emailed or submitted via the Unisom Marketplace.

17. The SOW describes a security feature incorporating the Department of State seal. Will the Department provide the approved artwork and authorize its use by the manufacturer.

Response: Yes

18. Is the C-SCRM questionnaire mandatory for all respondents, including manufacturers supplying physical decals without access to government information systems? Please confirm which cybersecurity and software attestation requirements apply

Response: This is not required.

19. Please confirm the quantity and coverage period for each, including whether 24,000 decals are required for each order, and which contract-period language controls.

Response: 24,000 decals are due for each order. Please also refer to response #13 as well.

20. Would you require any documentation from vendors as part of their RFI response. The RFI closes on Monday October 26, 2026.

    Response: Yes, please provide documentation that demonstrates capability in fulfilling the requirements outlined in the SOW. The Government defers to vendors to determine how to confirm capability.
